MINISTER FOR PRESIDENCY

RE: UNPROFESSIONAL CONDUCT BY THE RESIDENT DISTRICT COMMISSIONER, NAMISINDWA DISTRICT

Ms. Salome Julie Namara was promoted to the position of Resident District Commissioner last year having served as a deputy RDC in Namisindwa District for over 2 years. However, her stay in Namisindwa has caused more harm than good especially her biological relationship with the District Chairperson which has made her to behave unprofessionally in the following ways;

1. Her biological relationship with both the District Chairperson and the District Commercial Officer has led to the mismanagement and acts of extortion during the Parish Development Model Programme. The District Commercial Officer through Parish Chiefs pick over 20,000/= from every beneficiary in the Parish so as to have them cleared for payment which has become a public secret in Namisindwa District.

The RDC has failed to intervene because the District Commercial Officer is her biological relative as she also benefits from the loot.

2. Mismanagement of Emyooga Programme. This programme is being mismanaged under the watch of the RDC because she wants to benefit directly.

The RDC and the District Commercial Officer are using their biological relationship to cause harm to innocent group members. For example, group like Bubulo East Fisheries and Namisindwa Boda Boda SACCO had their leadership changed without the knowledge of group members and Julie benefited from Lwakhakha Women Enterprise Women Group and got Emyooga funds in the mentioned SACCOS

The new leadership that was illegally installed was immediately cleared to withdraw money with the biggest chunck of the money given to RDC and Commercial Officer as an appreciation.

The members who were not satisfied with this behavior have been threatened and directed to keep quiet or face arrest.

3. There is a lot of shoddy works in the district due to poor supervision and monitoring with the aim of getting kickbacks for example the Seed Secondary School in Namboko Sub-County that is yet to be commissioned but the buildings are already under use yet the contractor has not yet handed over the site.

This is because the contractor, District Chairperson and the RDC are related and this has compromised the quality of works because the building has been put to use before it is commissioned which will make it difficult to assess whether there was for money.

4. Failure to fully supervise the UPE and USE programme in the district. This has led to public schools charging various dues from the school going children which has led to high dropout rates of children due to the inability to afford the dues.

5. Failure to supervise and ensure that the local people benefit from technologies like onion seedlings, piglets among others. During the course of last financial year, the district procured close to 300 piglets but to the surprise of many, these piglets were distributed amongst the district councilors under the watch of the Resident District Commissioner which deprived the local people from benefiting and this is hurting the local population which is greatly affected the N.R.M rotes

6. Mismanagement of the one billion road fund money central government because she has been compromised. For the last two financial years the impact of the money has not been felt because it is being saved for campaigns by doing shoddy works.

That is why the district does not have any model road in a district that the district can point to as a result of the 2 billion received across two financial years. All this being done under the watch of RDC because of her biological relationship with the District Chairperson.

7. The RDC sleeps outside the district, she reports in the district late and leaves early. This justifies the increased cases of insecurity as reported in the media

She has also directly involved herself in partisan politics in the district. Her biological relationship with some of the aspirant like District Chairperson, District Woman M.P

aspirant i.e Zubeda Wasike has caused tension in the district because she vowed to make sure that her relatives win the forth coming N.R.M primaries.

This is likely to lead to blood shed as other competitors have vowed to put up a fight and resist any intimidation.

Basing on the above reasons, I kindly request your office to transfer the RDC away from Namisindwa District and deploy her in another district where her biological relatives are not found so as to create harmony and proper utilization of resources especially as we head into the election period.

Hoping for your positive response

Yours sincerely,

.....
